Campagnolo

THE BEST TEAMS CHOOSE CAMPAGNOLO®

For over 80 years, the quality and precision of Campagnolo® products have accompanied big names like Coppi, Gimondi, Merckx and Indurain in their many victories in the past.

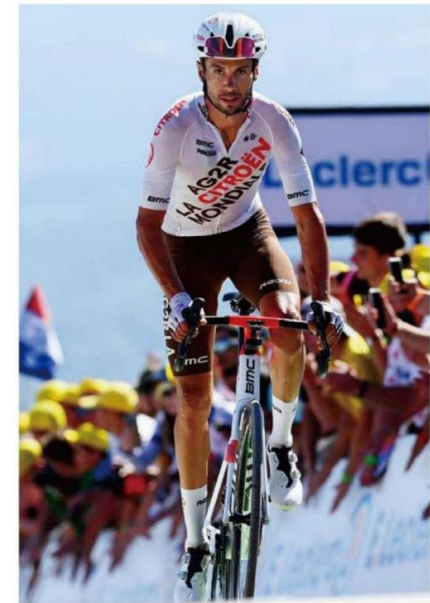

Still today, our company is right there alongside the stars of modern cycling such as Tadej Pogacar, Caleb Ewan and Diego Ulissi, using the components and wheels of our historic brand. Again in 2022, the best cyclists will be able to count on the excellent quality and top-level performance that have always made our Italian-brand products stand out.

Thanks to the contribution in terms of technology, reliability and performance that our components make in achieving victory in all classes of race, many teams on different levels choose Campagnolo® for their racing season.

SUPER RECORD WIRELESS THE MOMENT HAS COME

The moment has come. Crafting one moment of perfection takes time. Our commitment to extensive research and meticulous real-world testing ensures our wireless shifting components are a technological step forward. Premium design with zero shortcuts taken. Shift into the new dimension of performance.

APP CONNECTIVITY

Extend your experience with the new, state-of-the-art MyCampy 3.0 app. Developed for your ease-of-use, simply open the app to customise the controls to your specific needs, check your progress, or view battery status anytime, anywhere.

REDEFINED ERGONOMICS

The new benchmark of lever and hood design. Revamped for maximum comfort on long, demanding rides and modernised for smarter control. Carefully designed for one-motion gear changes – to enable you to shift fluidly without missing a beat.

ULTRA-TORQUE™ SYSTEM

Our most advanced system for translating your organic power into fierce output. Immediate, unstoppable responsiveness directed along a titanium axle and lightweight carbon-fibre crankarms. The chainring has been redesigned for uncompromised efficiency. Driving every watt of your power to the road.

PATENTED COOLING SYSTEM

Celebrated reliability, taken a step further. We've developed an ultra-lightweight, temperature-controlling design to give you enduring brake performance. Guaranteed stable braking and overheating protection, even on long, steep descents.

SAFETY – PRIORITISED

Ensuring your peace-of-mind is crucial to us. That's why we've taken extra measures to engineer a patented anti-cutting surface on our rotor profile. In the unlikely event of an emergency, this advancement prevents your bike becoming a potential hazard.

BICYCLE WHEELS

From the entry-level range in aluminum to the carbon wheels for road use by pro cyclists, each Campagnolo wheel is the perfect combo of unparalleled design, elegance and hi-tech content.

NEW BORA MORE THAN ICONIC

POSSESS PURE CONTROL. THE INSTANTLY RECOGNISABLE G3 LACING ENSURES MAXIMUM STIFFNESS AND CORNERING PRECISION – AND STUNNING, PREMIUM AESTHETICS. FLY AROUND TIGHT BENDS ON WIDER C23 RIMS, FITTING WIDER TYRES. CARVE YOUR PERFECT LINE.

BORA ULTRA WTO AND BORA WTO PERFECTION THROUGH EVOLUTION

A sleek Italian masterpiece, reinvented. Campagnolo's esteemed carbon wheelsets are set to inspire a new wave of passionate cyclists. Improved in every aspect compared to previous models – with enhanced aerodynamic performance, an ultra-lightweight build, and superior control. Now available in 35mm, 45mm, and 60mm rim depths.

BORA ULTRA WTO

BORA WTO

UNMATCHED AERODYNAMICS

Become speed. Unleash powerful sprints and save your power while drafting. The aerodynamically optimised rim profile, plus Aero Mo-Mag technology, gives you reduced drag power across-the-board. The unique 'drop-shape' rim profile takes inspiration from the most aerodynamic shape in nature to deliver exceptional performance and ride comfort.

LIGHTWEIGHT FOR REACTIVE CHANGES OF PACE

Feel weightless. The BORA ULTRA WTO is fitted with Handmade Ultra-Light Carbon (H.U.L.C.), the N3W freewheel hub, and C-LUX lacquer-free finish. This profound combination minimises weight by over 100g across all profile heights compared to the previous model.

BECOME SPEED

Cut effortlessly through the wind with Campagnolo's internal spoke seating system and iconic G3 lacing. The internal fibreglass-reinforced polymer seats for the spoke nipples ensure perfect alignment with the spokes – reducing real-world stressors on the components. The new rim profile is drop-shaped for unrestricted aerodynamic flow and was crafted to reduce overall drag by a significant percentage. This innovative construction allows the wheels to be built lighter and fully optimised for cutting through the wind.

FEEL WEIGHTLESS

Climb faster and react quicker with ultra-lightweight materials, the N3W freewheel hub, and premium engineering details. This wheelset is made with Campagnolo's H.U.L.C process to ensure optimisation of the profile and the quantity of carbon fibre and proprietary resin used for increased stiffness and control. The C-LUX finish on our wheels ensures a high-gloss, lacquer-free surface.

POSSESS PURE CONTROL

Carve your perfect line with the iconic Campagnolo G3 lacing and all-new C23 rims, allowing a greater range of tyre widths to be fitted. This wheelset features a unique carbon fibre rim structure – boosting rigidity and performance output. Seamless homologation of the premium carbon compounds ensures top resilience and zero points of weakness.

BORA ULTRA WTO
